The peculiar Method of dividing Tickets into Shares, of Halves, Quarrers, Eighths, and Sixteenth Parts, as practiced by Mr. F. sucis Willon, of the oldest Lottery-Office at Charing-Cross, we hear, meets with the greatest Encouragement, as by it Ad venturers have an Opportunity of extending their Chance to feveral different Numbers in the Lotter, at a very small Expence, and with the same Safety as in purchasing whole Tickets, which are likewise there sold by him as cheap as in any Place whasfoever, he having provided a large Variety of Numbers for that Purpose, as well as to divide into Shares. The Office is removed, for the Convenience of Cosches drawing up to the Door, from the narrow Paffage at Craige's Court, to the broad Way directly behind the King on Horseback, next Door but one to the Meufe Front Gare.
